

NEWS PUBLISHER TZ

Bedford Dental Centre News from the Front

Rosalind, Cathy, and Angela would like to remind our patients that all **"Insurance Coverages"** are constantly changing. We are not informed by your insurance company when changes occur. Please take the time to check your coverage before your appointment to be able to make informed choices regarding recommended treatment.

What's Happening in the HYGIENE DEPARTMENT

Hygienists: Corinna, Carol, Joanne & Tracy

Toothy Tidbit :

Did you know that about 75% of the population has some form of gum disease? We can help you stay healthy with proper home care and regular visits with your hygienist.

BABY NEWS:

Corinna,

Carol, & Joanne would like to welcome **Tracy** back from her maternity leave. **Paulette**, who worked her pregnancy leave, is loved by all the staff as well as our patients.

Paulette wants to stay at home with her son William for a while, now that Tracy is back, but assures us that when she is ready to work again, it will be here.

We all look forward to "brightening up your smile and your day"! WE remind anyone who cannot keep a scheduled appointment to give us 48 hours notice so we can let others have the available time.

News from your Dentists

Dr. Leigh Smith and Dr. Gregory Lovely, would like to welcome **Dr. Nicole Campbell** to the **Centre**.

We would also like to wish the best of luck to Dr. Milada Bowes who retired this year.

Your dentists are in the process of further educating themselves to manage all your needs, especially in the areas of esthetics, and orthodontics (tooth straightening, reshaping and whitening).

Dr. Smith, Dr. Lovely & Dr. Campbell

Would like to answer some

Long term-None Known.
Who is it for??
Anyone over 20 who wishes, but
INDIVIDUAL EVALUATION NEEDED!

Talk to us about Whitening at Home.

At Bedford Dental Centre, we are always trying to improve our dentistry. Most outcomes are reasonably predictable.

However, as in most sciences, events arise that can change the course of treatment. When we keep the lines of communication open, most dental problems can be resolved to a mutually acceptable outcome.

If we don't have all the answers, we do have many specialists at our disposal to help solve difficult situations. We would like to involve our patients, whenever possible, in their treatments. From the treatment planning stage to actually watching procedures as they are being done are all options.

Please don't hesitate to ask your assistant any question you might have regarding dental procedures. We are kept up to date on the newest procedures that the dentists are doing in esthetics and can explain how the newest products work.

Christmas Gift Ideas

*If you would like to provide someone in your life with "pre-paid" dental care to **brighten up their smile for Christmas** we can put a credit on their account and give you a "seasonal receipt".*
