

OUR OFFICE PRACTICES DENTAL INFECTION CONTROL

We utilize procedures recommended by the centres for disease control and the Canadian Dental Association.

1. Gloves are worn by treatment staff
2. Masks are worn by treatment staff
3. All instruments are sterilized after each use
4. All expendable materials are discarded after each use
5. All touched surfaces are disinfected after each patient
6. Contaminated waste is safely discarded

We invite your questions and comments because we care for you oral health and your general health.

Your Dental Staff at Bedford Dental Centre
